

## A platform for cultural exploration to foster peace and understanding across man-made borders.

Sarang Cultural Exchange Center offers the opportunity for the study of traditional art forms and an introduction to the values of Indian culture. The existence and growth of any art form does not solely depend on the performer but requires a knowledgeable audience who can appreciate it in full measure. So we welcome to our Center, not only the professional or aspiring artists but also culturally-oriented people seeking to get acquainted with the arts & culture of India.

Delve into the beauty and wisdom of Indian culture through the study of art forms, languages and cooking.
